EXPERIENCE

Teaching Assistant – Cloud Computing | Fairfield, CT Jan 2026 – Present
Fairfield University | Azure DevOps, Linux, Bash
• Mentored **30+** students weekly on cloud infrastructure, containerization, and Linux administration in hands-on labs.
• Maintained **90%+** lab completion rate across **5+ hours/week** of instruction; authored debugging guides.

Full-Stack Developer | Fairfield, CT Oct 2025 – Present
FoodWaster – Progressive Web Application | React, Node.js, Express, MongoDB, WebSockets, Azure DevOps
• Architected for **500+** user scale from day one — no re-architecture needed as active user base grew through launch.
• Eliminated notification lag with WebSocket pub/sub system delivering real-time food surplus alerts at **~150ms** latency.
• Shipped WCAG 2.1 AA-compliant UI across **3 usability iterations** with **0** accessibility regressions via Azure DevOps CI/CD.

Co-Founder & Lead iOS Developer | Remote Jan 2024 – Dec 2025
ImCookin – Native iOS Application | Swift, SwiftUI, OpenAI API, REST APIs, Figma
• Built and shipped a **Swift/SwiftUI** iOS app with GPT-4-powered meal planning; achieved **~1,500ms** avg. recipe-generation latency via modular REST API prompt-engineering pipeline.
• Iterated through **3 beta rounds** via TestFlight; built ML-assisted pantry tracking with budget-constraint recipe filtering validated against real user feedback.

PROJECTS

Oat – Productivity & Planning App | Remote Mar 2025 – Present
Next.js 14, TypeScript, Supabase, PostgreSQL, Stripe, OAuth, Groq API, Vercel
• Sole engineer on live SaaS with **50 beta testers**: shipped **5-view calendar**, **Stripe** payments, **Google** Calendar sync, and **Groq** AI chatbot cutting task creation time in half — built with **Claude Code** and **Gemini**.
• Secured all routes via **OAuth** (Google), Supabase Auth, Next.js middleware, and PostgreSQL row-level security — zero third-party auth libs.

ASML-Affiliated Tabletop Cleanroom – Telemetry Dashboard | Fairfield, CT Sept 2025 – Present
Arduino C++, JavaScript, Web Serial API, Chart.js, Tailwind CSS
• **Dean's Award for Best Senior Design Project | 2nd Place, SME Chapter 7 Competition**
• Built I2C-to-Web Serial bridge streaming live environmental data from **10 sensors at 10 Hz**; rendered real-time telemetry in a Chart.js SPA used to classify and certify the system as **ISO Class 6** via ISO 14644-1 compliance alerts at **~200ms** latency.
• Built single-click mechatronics automation reducing calibration time by **60%**; leading **3-engineer** team on schedule to maintain stable cleanroom certification.

LEADERSHIP & COACHING

Team Captain | Fairfield Women's Tennis – **NCAA Division I** Sept 2025 – Present
• Captain of **10-athlete** D1 roster; liaison between athletes, coaches, and athletic department while training **25+ hrs/week**.

Brand Strategist | Instagram Digital Content – Adobe Creative Suite, Audience Analytics Jun 2025 – Present
• Scaled audience from **0** → **10,000+ followers**; **3.5%** avg. engagement rate — **2–3×** industry benchmark.

Tennis Coach | Private & Club Coaching May – Aug 2025
• Coached **20+ students** of mixed ages, dedicating **15+ hrs/week** to skill development and match preparation.
